

# Iron

Calvin Harris

Love the way I feel  
Streets replaced with fields  
Wide awake in here  
You shine

Ran away from goals  
Left you in the cold  
Nothing's in our way  
Tonight

You know that you'll never be replaced  
And everyone here made the same mistakes as me  
And either way our time won't go to waste  
Our hearts will never be the same again

Our hearts will never be the same again
