

# Relax

Calvin Harris

Relax

I've come away with a panic attack  
The spinning lights make it hard to react  
Catch your breath, take your furniture back

It's for the taking  
All these girls are waiting  
Love's not god forsaking  
And that's worth celebrating

Relax  
Relax

Relax  
I've come away with a panic attack  
The spinning lights make it hard to react  
Catch your breath, take your furniture back

Relax  
I've got the coat and the jackets to match  
We can replace everything that you lack  
Take a book and a nicotine patch

It's for the taking  
All these girls are waiting  
Love's not god forsaking  
And that's worth celebrating

It's for the taking  
All these girls are waiting  
Love's not god forsaking  
And that's worth celebrating

Relax  
Relax  
Relax

It's for the taking  
All these girls are waiting  
Love's not god forsaking  
And that's worth celebrating

It's for the taking  
All these girls are waiting  
Love's not god forsaking  
And that's worth celebrating

Relax
