

We Gon' Love Tonite

Calvin Richardson

I've been waiting for some time with you alone
Girl i hope you're ready here i come
We won't stop making love until you're done
We can do it all night and go until the morning sun
There's a spiritual place your body needs to go
Its gonna get rough bang down the door
Let's take the pressure off each other
Break the rules with me girl whatever
I'll start at your head, work down to your toes
Get everything in between as the music flows
Gonna heal those wounds you have, supply your needs
Cause tonight girl, I'm gonna make your body happy

I wanna do this thing in phases, no rush tonight lady
Touch taste kiss got you crazy, we gon' love tonight baby
I got your favorite ice cream, a little honey for me
I'll kiss all the right places girl, we gon' love tonight lady

Got this sexual tension built up in me, excites my ego and chemistry
Got some real sexy role play to turn you on, I guarantee I'll be as gentle as they come
When you say to me take my body like a pro, the hot steamy sex, sweat starts to flow, even more
It's time to release our frustrations, tonight just give me participation for elevation
Let's take it to my bed, so incredible
Baby I'm right here beside you never let me go girl
Gonna heal those wounds you have, supply your needs
Cause tonight girl, I'm gonna make you call me daddy

I wanna do this thing in phases, no rush tonight baby
Touch taste kiss gotcha crazy, we gon' love tonight lady
I got your favorite ice cream, a little honey for me
I'll kiss all the right places girl, we gon' love tonight lady

Oh come give it to me baby, got that good old fashion country sanctified love
I know that you need me, know that I want you, your satisfaction guaranteed
And oh girl, so good I get sentimental oh!

I wanna do this thing in phases, no rush tonight baby
Touch taste kiss gotcha crazy, we gon' love tonight lady
I got your favorite ice cream and little honey for me
I'll kiss all the right places girl, we gon' love tonight lady
