

Cut The Silver Strings

Calvin Russell

I'd cut the silver strings
That hold the moon
If you wanted me to
Wrap a rainbow round the milky way
In a bouquet
Just for you.

Baby bring your love to me
You know I love you so
And you will be mine
Until I have to go.

I'll write it all across the wall
Of the world for everyone's eyes
How my life begins and ends
Inside the sound of my lover's sighs.

Baby bring that love to me
You know that I love you so
And you will be mine
Until you have to go
Till I have to go.
