

On Fire Tonight

Cam'ron

Wake your ass up
You know I'm looking for a whore
Word?
I found a whore
And?
And the whore ... ended up being a whore
You doing?
My man Zeek always told me a hoes gonna be a whore
Let a hoe fly
Let the birds fuckin' fly
Let 'em fly right Zeek?
They fucking fly away...

I need a girl who can sing like Celina
Ass like Trina
Tits like Janet
Get beat like Tina
Have you seen her?
I mean, caked like Oprah chauffeur...
Keep the toast in the holster
Tell me have you seen her?
I did...
Yeah I found one
A little brown one
Then she down son
'cause she pushed the beamer
I should have knew something was up from the jump
When I passed ma the blunt
The bitch was a steamer
I ain't kidding I had weed to blow
I ain't feed the whore
We took a trip to Argentina
I don't know why I died
But pours I went fours inside the whore
I found she wasn't cleaner
Dirty bitch burnt me
That concerned me
Now I'm thirsty
I'm looking for a looking meaner
I'm gonna kill her when I see her
So tell me, have you seen her?
Tell me, have you seen her?

It's the girls with the pretty face
And the pretty rides
Pretty thighs
But what about the insides?
And that bitch is a liar and dike, I took the condom off and now it's on fire tonight...
It's the girls with the pretty face
And the pretty rides Pretty thighs, but what about the insides?
And that bitch is a liar and dike, I took the condom off and now it's on fire tonight...

It's like treat her like a prostitute
Don't treat no girlie good don't show her your loot
Girl I see you riding wanna roll in the coo

See you with ice cream
Want to go for a scoop
I don't get mad
Tell her to blow on my flute
Before the I.E. you got it thrown on your crew
Droopy, sad, I read it, whoooo I'm glad you done it
Sue me, what you mad I said it?
From front back side to side
Never let a broke ass female ride
I learned that down south from niggas in Texas
Before I drink up I big up big guesses
Imagine me get up against this
Get her a Lexis
You're figuring ... reckless
Baby I'm sexist
So back up, let me strap up before you give
Cam that clap up I'm gonna have to clack up

And why that nigga still going broke?
This is for my niggas out there that DO use a condom
For the first night...
Then go brawl all the other times
Where the psychological sense in that player?
You need to wash your face, get your mind right
Girls up here is burning
Bitch burnt the braids off my nigga the other week....
Yeah, yeah, I know what to do
I'm gonna get the pussy ATM started
Before anything happens your gotta swipe your pussy across this board
Let you know what's going on
What type of temperature you running
Cause I can't stand niggas running out here to the clinic sitting down talki
ng bout 'I ain't
nuttin Zeek, I'm over here gettin condoms'
Nigga, I seen you break the door down running to the nurse talking bout help
me, help ME
You damn right I'm gonna help you
I'm gonna hang your stupid ass right in front of the damn clinic

The hell you gonna come running 'my girls got a venereal disease Huh! her pu
ssy lighting up like a light bulb...'
Talking about a light bulb...
Shit
A light bulb?
Tell you what, engineer, venereal decease is going on down there
It's crazy...
Ladies is crazy
I'm gonna write a book on how stupid niggas is

[Chorus]
