## **Highways Of The Sun**

Camel

We are sailing in a ship that's got no sails We are riding on a train right off the rails We are in an old sedan that's lost a wheel But it makes no difference to the way we feel

It's been a long time - seems like a lifetime To be where we are Take a little tumble, fall and maybe stumble Now we've gone so far

All along the highways of the sun

No one knows how far it is we have to go Because every step we take reveals some more But we'll keep right on as far as the eye can see Over there where landman scares appear to be

Crusing down the highways of the sun

All along the driveways of the sun
