

## Slow Yourself Down

Camel

They tell me you're searching for a new place,  
They tell me tomorrow will have a true face.  
They say that I don't understand,  
When you speak of your summertime land  
Just slow yourself down, I'm coming along.

They tell me your past often hurt you,  
And even your friends, they would desert you.  
But now you are beginning to see,  
The same things have happened to me  
Just slow yourself down, I'm coming along.

You tell me your dreams have been broken,  
And not enough words have been spoken.  
The time has come to see it through.  
Slow down 'coz I'm coming with you  
Just slow yourself down, I'm coming along.
