

# I Want It Now

Cameo

Ow, ow, yeah  
Baby, I like this feeling  
You've got my heart still reeling  
'Round and 'round you  
You sexy thing you  
You always know just what to do

Oh, I've had many girls before  
I was a Don Juan, that's for sure  
But I'm ready for the serious thing now  
And I know you've got that thing for me

Baby  
(Baby, I want your love, I need it)  
Baby  
(Baby, I want your love, I see it)  
Baby  
(Baby, I want your love, don't hide it)

There's nothing that could do  
To work this body quite like you

Baby, I've been waiting such a long time  
I want it now and you want it too  
Baby, I've been waiting  
Such a real long time now  
I want it now and you want it too

Girl, I've been as patient as I can be  
I get excuses and you hide from me  
Baby, I won't let you know  
Without your love, where can I go?

I'm not an easy quitter  
(Oh, no)  
It only makes me come and get it  
With you, on a serious tip  
I'm busting out, what you've done for me

Baby  
(Baby, I want your love, I need it)  
Baby  
(Baby, I want your love, I see it)  
Baby  
(Baby, I want your love, don't hide it)

There's nothing that could do to work  
This body quite like you

Baby, I've been waiting such a long time  
I want it now and you want it too  
Baby, I've been waiting  
Such a real long time now

I want it now  
(I want it now)  
And you want it too

(Ow)

Baby, I want it now  
I've been waiting such a long time  
(Baby)  
I want it now and you want it too

Baby, I want your love, I need it  
Baby, I want your love, I see it  
Baby, I want your love, don't hide it  
There's nothing that could do to work  
This body quite like you

Baby, I've been waiting such a long time  
I want it now and you want it too  
Baby, I've been waiting  
Such a real long time now

I want it now  
(I want it now)  
And you want it too

I want it now and you want it too
