

# You Make Me Work

Cameo

Well I've been losin' my mind  
And bustin' my behind  
Trying to get you, girl.  
And I've been working so hard  
I feel like you deserve a check  
And I'm made of passion, girl.  
You know I'm really glad to meet you  
When you're always sweeter  
When you bust my drops  
'cause you will work a man so hard  
He'll drop down to his knees  
I'm beggin' you baby baby please

You make me work all night  
All night even in between  
Why do you make me work all night?  
But you never let up it seems

Now I work a hard job  
Eight hours preachin' everyday  
(work work)  
So when I come over to see you  
You know you can't treat me this way, no  
I'm hung up and stressed out  
Don't know what time it is  
That's why I need you invested  
In love that won't be bringing you tears  
For years and years, that's why

You make me work all day  
Overtime, even on my time  
Why do you make me work?  
I know you're nervous  
But I can't keep everything  
No, no, no, no, no

(You make me work hard)  
I and I'm coming to get your love  
It's hardly nine o'clock  
(You make me work hard)  
Oh baby, yeah

You make me work hard baby  
To get your love (you prove me wrong)  
You make me work hard baby  
You make me work hard baby  
To get your love  
You make me work hard baby

Why do you make me work?  
I work my behind off  
I can't let you set me off  
Why do you make me work?  
I can't spend my time  
Now I'm here about what's mine  
Why do you make me work?  
Make me work all night

Why do you make me work?  
You treat me right

And I'm coming to get your love  
Get your love, get your love  
(you make me work hard)  
Make minimum wage, baby!

You make me work hard baby  
To get your love  
You make me work hard baby  
You make me work hard baby  
To get your love  
You make me work hard baby

I got to work real hard even though  
I do work even harder  
To get problems solved you're too much  
Watch your break it's the man in  
Oh, my, my. I'm on my job  
Work, work, work, work, work
