

Park and Ride

Camera Obscura

The system we live in
It's pawn shop for roundabouts
It's making me puzzled
It's getting me troubled
It's getting me troubled

Said you would phone us
So stick to your promise
Maybe you'll swim in
Quite shallow waters
Quite shallow waters

This road just lead us down (let us done??)
When you park and ride
Do you have to look
Have to look around

Swerve to avoid this
A panic when I'm too glad
So why don't we stumble
And (?) into something
Just (?) into something

A kick will involve us
It's all that we need it
Besides I'm the safest
Get lost on your way there
Get lost on your way there

This road just lead us down
When you park and ride
Do you have to look
Have to look around

Ba da ba da ba...

This road just lead us down
When you park and ride
Do you have to look
Have to look around
