

Are You Still Alive

Camisado

I can't be seen, can't be saved
I'm just a face to put on this memory
Even if I begged for your help
You wouldn't even know what to do

I believe in revival
And even if you could
There's too much blood
These stains don't just wash away

Stop the medication
Because it's only getting worse
I looked in the eyes of the doctor
As he held the hand of the nurse
"No one could survive this"
But those are only words
If I die here today
I will rise from this hearse

Forgive me
I made a big mistake
I got caught in the moment

It would take everything in this ambulance
To save me from this critical state
There is nothing that you can do.
Give it time and I will flat line

Clear
I need oxygen

That night I swore there was something in the sky
I never expected to feel you take it all away

Stop the medication
Because it's only getting worse
I looked in the eyes of the doctor
As he held the hand of the nurse
"No one could survive this"
But those are only words
If I die here today
I will rise from this hearse
Just look at you now
Just look at me now
Just look as us

Is this what you call happy?
When all the while
All you wanted to see
Is my throat smile

Does this make you sweat?
I'll be the ghost that you'll never forget
