

King Of Hearts

Camisado

(Oh) Oh, I can't believe this
(No) No, I can't believe it
They're all around me
They're haunting me

(Oh) There's so many bodies
(Oh) There's so many bodies
There's so many bodies dancing all around me baby

Don't let her figure fool you
The way she slips and sways
She'll sting like a viper

(Oh) There's so many bodies
(Oh) There's so many bodies
There's so many bodies dancing all around me

I am the one you're looking for
Consume me

Exposing everything
That's all around me
It surrounds me
I am the king of hearts
It destroys me

The only difference
Between you and me
Is the tense we put on love

(I) I lost myself
(I) I lost control
I lost all of my self-control

(Oh) There's so many bodies
(Oh) There's so many bodies
There's so many bodies dancing all around me

Exposing everything
That's all around me
It surrounds me
I am the king of hearts
It destroys me

I am the king of hearts
I want you to get to close
Luck gets you a random card
Love gets you the king of hearts
