

# Mind Of A Monster

Camisado

Oh, why do you complicate things I'm telling you?

All we've done is  
We've followed the same path  
We're finding our way back  
I'm just trying to find someone  
Who will be honest with me

Is it really all that bad  
If the monster's on the run?

There's either something wrong with you  
Or maybe I am capable of being loved

Sorry that you had to see  
The monster that I am  
Sorry that you had to see  
The monster in me

Imagine what its like  
To live in the mind  
Of a monster

I'll try not to pollute your mind  
The way you did to mind  
Oh, were going down

We'll get lost in this mess I'm in

Run  
Get out now  
Leave here now

Tell me what's the difference in  
Killing you with me  
Or letting you die alone?

All we've done is  
We've followed the same path  
We're finding our way back  
I'm just trying to find someone  
Who will be honest with me

Get out of my head  
Get out of my head  
Or I'll leave you  
Dead

I've got someone I want you to meet  
I'll introduce to the mind of the beast
