

## Blink

## Camouflage

Lift the receiver girl  
Come to me  
The sun and the moon colides  
You know that!  
It could last a lifetime  
Shimmering the surface of the sea  
Dive into the water  
Open up your eyes  
That you might ...  
See, we're diving  
Although we should know  
It's more like flying  
And you might feel  
Just like a leaf  
Carried away  
Until your're dying  
In my arms ...  
It's been a long time now  
I agree  
I'll carry the weight away  
You know that!  
It could be last a lifetime  
Shimmering the surface of the sea  
Dive into the water  
Open up your eyes  
That you might ...  
See, we're diving  
Although we should know  
It's more like flying  
And you might feel  
Just like a leaf  
Carried away  
Until your're dying  
In my arms ...
