

I Once Had A Dream

Camouflage

I once had a dream in my head
I workde on machines
And it made me upset
I felt so alone
She nearly had filled all my days
She let me forget all the things around me
She was all I wanted
You and me were approaching
Hiding from everyone
I once had a dream in my head
But I know she had gone
She quietly moved by my side

I turned around and looked in her eyes
I felt so in love
I once had a dream in my hands
We laughed at each other
And started to dance
Nothing seemed to be real
You and me were approaching
Hiding from everyone
I once had a dream in my head
But I know she had gone.
I Once Had A Dream
