

Who Will I Be

Camp Rock

Whoo, yeah, yeah, yeah!
How to choose
Who to be
Well let's see
There's so many choices now
Play guitar, be a movie star
In my head, a voice says

Why not
Try everything
Why stop
Reach for any dream
I can rock
'Cause it's my life and now's the time

Who will I be
It's up to me
All the never-ending possibilities
That I can see
There's nothing that I can't do
Who will I be
Yes, I believe
I get to make the future what I want to
If I can make up anyone and know the choice is
Up to me
Who will I be

If I decide
I'm the girl
To change the world
I can do it any time
Opportunity
Right in front of me
And the choice is all mine

Why not
Try everything
Why stop
Reach for any dream
I can rock
'Cause it's my life and now's the time

I wanna find the who I am inside
Who will I be
I wanna show the way that
I can shine, yeah
Oh, yeah

Who will I be
It's up to me
All the never-ending possibilities
That I can see
There's nothing that I can't do
Who will I be
Yes, I believe
I get to make the future what
I want to

If I can become anyone and know
The choice is up to me
Who will I be
Whoo, who will I be
Who will I be!
