

# Never Go Back

Camper Van Beethoven

Never gonna go back to the Rat and play  
another Mafia show again  
For a man who's had more feet kicked in his face than I can  
begin to count

And if you see me sitting around  
Thinking the same old thoughts over and over again  
Or going back to old ways I've long ago abandoned,  
Please tell me

Never go back

There might come a time when things between us get  
Just a little bit too weird  
We'll move to different cities for a temporary vacation  
But it's just as you feared

Never go back

If you see me sitting around  
Thinking the same old thoughts over and over again  
Or going back to old ways I've long ago abandoned,  
Please, tell me

Never go back
