

Sorceress

Cancer Bats

Off my chest
Little girl you're at the top of my shit list
I swear to god you're the worst piece of trash I've met
In a long while
All the back talk
And the lies
You couldn't speak the truth if you tried
I'm surprised you even show your face around
After whats gone down

Hey hey you little train wreck
Your crying wolf shit is over rated
Hey hey you little train wreck
That you're the worst is an understatement

Burn those bridges down
I swear little girl you'll set the city on fire

Off my chest
That shit you talked got me pretty god damned stressed
Worst part is I'm just one case in a long line
That you've fucked with
Worse stories can't compare
To all the shit that you've done in a year
I swear karma's gonna burn you down like a witch
Paybacks a bitch

Hey hey you little train wreck
Your crying wolf shit is over rated
Hey hey you little train wreck
That you're the worst is an understatement

Burn those bridges down
I swear little girl you'll set the city on fire

If you lit a match for every lie that you told
Everything around you will be engulfed in flames

Oh, god I've got to get this...
Off my chest
Oh little girl you're at the top of my shit list
I swear to Christ you're the worst person I've ever met
In my entire life
Shit talker two timer
You're called out as a god damn liar
Every single word that you say is untrue
Every one hates you

Hey hey you little train wreck
Your crying wolf shit is over rated
Hey hey you little train wreck
That you're the worst is an understatement
