

Cloak Of Darkness

Cancer

I wait for darkness to arrive, I dream of pain
I cherish thoughts, seduction that awaits

My name is God, immortal dog
My life is blood, death is love
Bring forth a plague, mace of sins
As I unleash the horrors within
My faith is pure, some think not
I have the taste, submit to you all
Resist me now, receive your fate
Your foolish mind has no escape

Embrace with me
Share a dream
Divine wisdom and life
Destroy the weak
Shatter the meek
Let your mind decide

Don't let your mind
Weaken like the rest
Reject their faith
Immortality is the only way

My name is God, immortal dog
My life is blood, death is love
Bring forth a plague, mace of sin
As I unleash the horrors within
My faith is pure, some think not
I have taste, submit to you all
Resist me now, receive your fate
Your foolish mind, has no escape

Embrace with me
Share a dream
Divine wisdom and life
Destroy the weak
Shatter the meek
Let your mind decide

Embrace with me
Share a dream
Divine wisdom and life
Destroy the weak
Shatter the meek
Let your mind decide
