

Alter Of Sacrifice

Cancerslug

Dark star is calling
Black moon is filling up the endless sky
And death is coming for you
Black robes I can hear the little babies cry
On the alter of sacrifice
Cry on the alter of sacrifice

The drums beat warnings
You feel your end in sight
And death is coming for you
Black robes I can hear the little babies cry
On the alter of sacrifice
Cry on the alter of sacrifice

Don't let it fade away,
Don't let it fade away,yeah
Don't let it fade away,yeah
Don't let it fade away...
