

Bloodlust

Cancerslug

Youve got such a beautiful face
you know I'd love to smash it in
and when you reach to me with those lovely little hands
thats when the horror begins
oh lovely dark
blackness in my heart
can't stop the bloodlust once that motherf**ker starts
you've got such a beautiful smile
after I cut you ear to ear
and when you look to me
and beg for sweet release
give me more is all that i hear
oh lovely dark
blackness in my heart
can't stop the bloodlust once that motherf**ker starts
you can see your death in my eyes
but it's alright now
Im just a beast in disguise
but it's alright now
