

Dance Of Death

Cancerslug

Only the dead will dance with me.
There isn't any other way.
Only the damned know what I mean.
but we dont want your sympathy.
Dead girl in the trunk of my car.
Her heads full of insect larvae.
We'll drive across the USA.
I hope her smell doesn't give us away.
Dead girl in the trunk of my car.
Only the dead will dance with me.
and I cant see any other way.
Only the damned know what I mean.
and I hope it stays this fucking way.
Dead girl in the trunk of my car.
Her heads full of insect larvae.
We'll drive across the USA.
I hope her smell doesn't give us away.
Dead girl in the trunk of my car.
Only the dead will dance with me.
and I hope it stays that fucking way.
