

Demon In My Pants

Cancerslug

I want to rip your cock off (you fucking cunt)
And shove it down your throat (I really do)
I want to burn your tiny little world down
And dance amidst the smoke
But Ive got an angel in my heart, telling me that it's all wrong
But Ive got a demon in my pants, raping the life you have known
Ive got my love of pain, and all the things that darkness brings
Alone, but I know it's all my own
Your life is a fucking rimjob (I guess you go with what you know)
Sucking the asshole of fear (you little bitch you do)
You spineless little fucking prick, you know you should kill yourself off soon
Or I could do it for you
