

Demonic Angel

Cancerslug

Demonic angel opens up her wings deep inside of me
(show me how to die)
Demonic angel tells me all these things but she lies to me
(someone save my life)

I can't explain the things that tear my world apart
When she is near to me
She is so dear to me
I can't sustain the pain and emptiness she brings
In her hollow eyes
The one thing she can't hide

I can't do this
I can't take it
No one is real
All of you fake it
No reasons left for me to try
I can't do this
I can't take it
No one is real
All of you fake it
No tears are left for me to cry
Goodbye
I'll blow my brains into the sky

Demonic angel opens up her wings deep inside of me
(show me how to die)
Demonic angel tells me all these things but she lies to me
(someone save my life)
When will she come again

Love is like a shallow grave
When the rains come
It gets washed away
When will she come again
The shadows on her face
Cover up the scars
'cause love is war

I can't do this
I can't take it
No one is real
All of you fake it
No tears are left for me to cry
Goodbye

I'll blow my brains into the sky
Demonic angel opens up her wings deep inside of me
(show me how to die)
Demonic angel tells me all these things but she lies to me
(someone save my life)

I can't explain the things that tear my world apart
When she is near to me
She is so dear to me
I can't sustain the pain and emptiness she brings
In her hollow eyes

The one thing she can't hide
