

Like virus seeps into these veins (disease)  
Concrete tumors world of shame (disease)  
Now is the time for dogs of war (disease)  
This is your judgement day  
This is our finest hour  
As I'm lookin' through the other side  
I am blind to the thing my eyes have seen  
I'm amazed and repulsed at how you've spread just like disease  
And how you're back to do it again  
To everyone here in this room (disease)  
Your shallow lives are your tombs (disease)  
Red velvet flesh is what you need (disease)  
Now is the feast of blood, what you've sewn we will reap  
As I'm lookin' through the other side  
I am blind to the thing my eyes have seen  
I'm amazed and repulsed at how you've spread just like disease  
And how you're back to do it again!
