

Fuck You

Cancerslug

Yeah we drink.

Yeah we fuck.

Yeah we get in fights and get fucked up.

And you can bet your ass that its twice as bad as anything you heard about us.

Put a rock in front of my face. And I'm gonna smoke that shit.

And if you don't like the way we live. Then you can suck my dick.

And if your feeling disappointed by the way we choose to live

Just know that we never really gave a shit.

And if your feeling disconnected from the things we choose to do.

Just know its because we really hate you too.

We like to rape the things we kill.

And what you fucking wont do we will.

Running lines off the ass of some dead hooker trash we sodomize d with a drill.

We are like a death machine of hate and the speed helps us stay up late.

We are like a carnivore feeding on some whore while you watch a nd masturbate.

And if your feeling disappointed by the way we choose to live.

Just know that we never really gave a shit.

And if your feeling disconnected from the things we choose to do

Just know its because we really hate you too.

We are already on the other side.

Burning on the other side. This is our way to say fuck you.

We are already on the other side.

Burning on the other side.

This is our song to say fuck you.
