

## Love Like A Fist

Cancerslug

Its time to die  
so say goodbye  
no more romantic lullabys  
love is like a fist  
hard to resist  
so take a fist from the knuckles on your lips  
I will black out the eye of the world tenderly  
motherfuckers bleeding on my alter  
just for me  
and Im afraid there is nothing left to say  
I see no need to save anyone just let them burn  
motherfuckers already live to long  
just take your turn  
and Im afraid there is nothing left to say but  
down here, we all float
