

Rise Of The Wolf

Cancerslug

At last the beast will have its day
now the demon has its way

Tonight the wolf will howl imortal
out of the darkness into light
to dance in the entrails of children
and rape your women in your sight

Tonight the wolf will hunt you down
pray for a quick death now

Tonight youll never see me comming
I will strike without a sound
leaving your body in the open
then kill the quickly drawing crowd
