

Roadside Horror

Cancerslug

A race of death, it's just a reason to kill
A genocide made of iron and steel
A motherfucker behind the wheel
so you can kiss your ass goodbye

I fucking drive through your waste of a life
With death I ride
Your life ain't shit and neither is mine
so lets go die

Twisted flesh and a broken soul
Give me a car and I'll fuckin' explode
But you should stay the hell off my road
or you can kiss your ass goodbye

I fucking drive through your waste of a life
With death I ride
Your life ain't shit and neither is mine
so lets go die

I fucking drive through your waste of a life
With death I ride
Your life ain't shit and neither is mine
so lets go die.
