

## Straight Razor Rape

Cancerslug

Why the fuck did you cut off that bitches cunt?  
Well how the fuck else could I get it in my pocket?  
And while I'm standing here arguing with myself  
I know that I should be getting my ass somewhere else  
Blood on my hands  
The tears in her eyes  
Please undertsand  
There will be peace when you die  
I know what it takes  
To make a heart ache  
A straight razor rape  
You weren't the first  
You won't be the last  
Give me a break and take your own life
