

The Sun Will Never Shine

Cancerslug

I have hunted flocks of angels
I have snorted all their dust
and the world kept spinning on
Im here trapped in eternal darkness
pushed aside by man
and I know the sun will never shine over me
I have chased all of you devils
into a thousand shitty bars
and they all looked the fucking same
I already know the answers to the questions you fear to ask
and I know the sun will never shine over me
