

Time Of Apes

Cancerslug

Don't waste my time
You are heir, you are mine
We will only be apes for a short time
Don't waste my time or you will walk this night alone
I am your future and your future here is gone
I am the face of everything crule in your world
I am your future and your future is no more
Don't waste my time
You are heir, you are mine
We will only be apes for a short time
Don't waste my time or you will walk this night alone
I am your future and your future here is gone
I am the face of everything crule in your world
I am your future and your future is no more.
