

# Forever That Man

Candice Glover

Love... love until the end of time  
I see you and that's what's on my mind

You're everything, everything I need  
But you don't know how much I want you to be mine

I'll paint a picture, a picture, a picture  
Of me inside your heart  
I need to deliver, deliver, deliver  
Myself out of the dark

This time I'm taking that chance  
Grab you by the hand  
Give you what no other woman can  
No dream can compare  
To you being here  
I gotta make you understand

The way that the moon meets the stars at night  
Baby, it's something you can't deny  
I'm taking that chance  
Grab you by the hand  
And you'll be forever  
Forever... that man

No... no, this isn't a coincidence  
When you know that it's something so evident

I got a picture, a picture, a picture  
Of me inside your heart  
And I need to deliver, deliver, deliver  
Myself out of the dark

This time I'm taking that chance  
Grab you by the hand  
Give you what no other woman can  
No dream can compare  
To you being here  
I gotta make you understand

The way that the moon meets the stars at night  
Baby, it's something you can't deny  
I'm taking that chance  
Grab you by the hand  
And you'll be forever  
Forever...

This ain't no accident  
When love came crashing in  
I'm what you're looking for  
Don't need to search no more  
Cause you're the open door  
And I'm running to you

This time I'm taking that chance  
Grab you by the hand  
Give you what no other woman can

No dream can compare  
To you being here  
I gotta make you understand

The way that the moon meets the stars at night  
Baby, it's something you can't deny  
I'm taking that chance  
Grab you by the hand  
And you'll be forever  
Forever... that man
