

# The Lullaby Of Champions

Canibus

Goodnight... don't laugh don't cry  
I'll never leave you  
So just close your eyes  
Couldn't deceive you  
So fall deep into sleep to my lullaby

I recorded this in solitude  
Probably the only opportune moment to talk to you  
I'mma hold hands and walk with you, all of you  
I honor you, plus I got a lot of jewels to offer you  
I know each of you got jewels to offer too  
But only if the world knew what was possible  
The gods and the goddesses above they watch us  
While fallen angels make obstacles to stop us  
Fear shuts down the evolution process  
Chaos, that's what they want to accomplish  
They usher in law and order through the back door  
Start a massive war, enact martial law  
Nahh... The real samurai stand up  
Atomic Godzilla just fucked Japan up  
Think about it, they say Haiti had bad luck  
I say "man up, they leaders just abandon them!"  
What happened to the donation relief dollars?  
I'll tell what happened, it went to them leader's pockets  
They use fear and confusion to control us  
Tell us to donate then rob us for our emotions  
They pretend to lead the people like Moses  
As the Rapture approaches they escape in the commotion  
I came to tell you that the Angels believe in you  
They believe in me too, so I ain't gonna leave you

(Overlaps Chorus)

The first shall be last and last shall be first  
That concept was here before man was on Earth  
It's not gonna get better before it gets worse  
And no matter what, we gotta do this light and dark work  
I came to tell you that the angels believe in you  
They want you to see the truth through the evil  
They want you to know that ignorance weakens you  
And they want us all to recognize that we are one people

I came to tell you that the Elohim believe in you  
And the righteous never have a right to deceive you  
You've never seen me do nothing greedy or unreasonable  
And that's cause I ain't ever gon' leave you  
Canibus was put here to ride with you  
And build our faith up to fight the impossible  
I ain't preaching brother, I'm saying all we got is each other  
Forget what those motherfuckers promised you  
I love you and I honor you  
The God honest truth is that I would do the same thing if I was you  
Comet 911 is coming nobody saying nothing  
But we gotta figure out what to do

(Overlaps Chorus)

The first shall be last and last shall be first  
That concept was here before man was on Earth

It's not gonna get better before it gets worse  
And no matter what, we gotta do this light and dark work  
I came to tell you that the angels believe in you  
They want you to see the truth through the evil  
They want you to know that ignorance weakens you  
And they want us all to recognize that we are one people

Chaos, death, and destruction is near  
I pray these words don't fall on deaf ears  
Comet 911 is almost here  
Do the research and find out for yourself  
Stop waiting on somebody else to help  
Be proactive, save yourself
