

# The Primary Axiom

Canibus

It ain't no excuse, it's the truth  
We never had a chance cause the enemy's not human  
Bite off more than you could chew then choke  
Good and bad opportunities, I've ruined them both  
What you be about, Lord? "Aiyo, I be about Tiaamat's law  
Before the Great Wall was destroyed."  
Knowledge, wisdom, understandin'  
Amnesia pre-plannin'  
Native tribes slaughtered by cannons  
Didn't wanna listen when I told you  
Now you eating soy bean tofu, look what you go through  
The faggot wants to be accepted, the Anti-Christ is erected  
The whole world changes perspective  
Khadafi had a golden gun  
China got two hundred and fifty quadrillion golden tons  
American confidence is waning, patriots complaining  
Drones in the sky filmin' terrorist training  
The white man's mad because the white man is selling out the white man  
Now you KNOW shit is bad  
The Asian man got computers that don't subtract, they just add up  
While the Arab man'll still pull the dagger  
The rednecks from Santa Ana reach for they hammer  
Blam, Blam, Blamma look straight into the camera  
Jenny Lake, Wyoming camping, the stars are dancing  
Starlight skies, Dreadnaught's commander  
Homo Cobra Capensis, long pincher's  
Like a Mantis, early Appalachia Atlantis  
Baalbek, broad shoulders, throw boulders to the four corners  
When I'm around they start talkin'  
Knuckle-draggin' monkey, think he know somethin'?  
You don't know nothin'! The Ironman suit was on Tussin!  
The nation sinks into a cesspool of sinflation  
Automated Jamaican simulations, I'm stimulated  
Eviscerated, well-shaven, when he's dead cremate him  
Make sure you say his rhymes verbatim  
I'mma put you in rehab, punch you i your fuckin' bean bag  
And go have myself a nice steam bah  
You don't want the wrath of black Charlie McGrath  
I sprinkled glass on the grass before they raided my pad  
Pull up the customer case while I fuck your face  
Negotiate, how much does your 10.99 make?  
Yeah I like joggin' in place, Martin Luther's speech everyday  
Cause I had to have a dream anyway  
Camelbak break, ice cold water on a dry lake  
Not bad for a primitive primate, huh?  
Dark project research manager, Canibus  
In the '90s I created a neuro-sampler  
Nano-nuclear waves, non-particle  
You the NCO in charge of this group? Lemme talk to you  
Rap this, rap that. C'mon Canibus just rap  
The whole world happy Canibus back  
1000 bars plus tax, I know you love that, you little muskrats  
Doin' jumpin' jacks on the tracks  
Be quiet! Something is watching us, influencing our consciousness  
Falsely encouraging us, stopping us!  
They can't live without you, 'Bus  
They said we need more time. I quietly replied "Time is up."

I've rhymed enough, uncoiled B-Fields  
T1, 2 & 3, the Beast from the East will not yield!  
The time war samurai sword, pantomime record  
Minds like mines not minds like yours  
If language is a virus, Germaine is timeless  
Simply put, Germaine is a syllable scientist  
In comparison, I pale to creatures with scales, claws and tails  
Laser weapons hangin' off of they belts  
With the wings and the eyes of an eagle  
No matter the distance, they see you  
Put your hands where they can see you  
Read your thoughts like the NSA  
Paralegal power to the people  
I wish I had the power to defeat you  
The Hebrew has no equal, technology he has the keys to  
With breakaway speeds to leave you  
The pyscho psychic hypersensitive Sifu  
Since the veil's too thick for human beings to see through  
They don't need to let you know they don't need you  
All you need to know is that they came from Nibiru  
Nimrod wants his gold and he's coming to get it  
And that's why he's worshiped by the ones that collect it  
I can motion vector long enough to hold that sector  
I'm the protector, Hip Hop's alpha-successor  
Kick yo ass all over the battlefield, it was my pleasure  
And we can do it again, whenever
