

## Worthlessness Purpose

Canibus

He is the Sea Merchant who eats Sea Urchins and Sea Serpents  
He does it to give his obvious 'Worthlessness Purpose'  
Deep Sea searches bring his verses back up to the surface  
Someone is brought in to interpret  
Do not engage in conjectural with the professor  
Just nod ya head and say Yes Sir! Here is the next verse  
Toxicology analysis, MCs examine Bis but it's too late...  
Nothing above ground will escape  
The jungle will haunt you, the desert becomes you  
Be humble, if it ever takes something from you  
No advantage, No standard  
Ya Tranquility is being tampered with by Canibus' masterpiece m  
antra  
When albums are requested, they used to be respected  
Only the best deserve to be the center of attention  
Enter the legend, Hip Hop will never forget him  
And Laser Weapons are now being tested  
Inside this bubble composed of two poles  
I think I can come up with a few flows, bullshit  
Says whose knows, just another boy from the Group Home  
Who's good at producing a few songs  
I wonder how many MCs lives I've touched?  
How many lives that I've protected them from?  
More powerful public speaker low budget demeanour  
Look like the reaper, senior Ripper information retriever  
Slick talk or barter away your OES Charter  
Not smarter, just thinking harder, it's truly an honour  
Plutocracy, Kleptocracy, to be or not to be?  
Please talk to me, I'll show you how these rhymes ought to be  
There is not much time to decide or take sides  
You are standing in the middle of lyrical fratricide  
Giant tiger mosquitoes and carrion beetles biting people  
The Mist makes it hard to see through  
It has always been believed by those even wiser than me  
That nobody can describe what I see  
Reality hangs in the balance  
The "C" of Tranquility is not a body of water it's an Island  
A string of islands that connect like strings on a violin  
Waking up to a dark horizon  
My rap style will always be in it's prime  
You rhyme for yourself, I rhyme for mankind!  
Wireless or landline? Any time  
Grab the mic and do the damn rhyme

Any time. Grab the mic and do the damn rhyme.
