

An Owl Song

Canned Heat

Woman, when I see you comin', should have started runnin
Evil woman
Woman offered you my soul
You ran it over hot coals
Evil woman

Woman, thought you were a best send
But when I caught you messin'
Well woman
You ain't got no feelin'
Catch your dirty dealin'

Evil woman don't you know what your actin'
Evil woman can't you see that I'm beggin' you

Woman, when you whisper to me
All the ways you do me
Evil woman

Woman when you work your way in
Gettin' under my skin
Evil woman

Yeah woman, the way you laughed at my pain
The way your flippin' my brain
Yeah woman there are other choices
But I didn't hear their voices

Evil woman can't you see when your fallin'
Evil woman can't you see the devil is callin' you

Evil woman don't you know what your wreckin'
Evil woman can't you see that I'm beggin' you
Evil woman can't you see that I'm beggin' you

Woman when your life is (?)
Written on the tombstone
Evil woman

Evil woman don't you know what your wreckin'
Evil woman can't you see that I'm beggin' you
Evil woman can't you see that I'm beggin' you
I'm begging you baby
Please don't do that baby
