

# Open Up Your Back Door

Canned Heat

Well I know you don't love me and you told me and you showed it  
too

Well I know you don't love me and you told me and you showed it  
too

I need your loving right now, no matter what you say or do

You put me down pretty baby now you know just how I feel  
You put me down pretty baby now you know just how I feel

I need your loving right, come on let's make a little deal

Turn your lights down low  
Open up your back door  
Turn your lights down low  
Open up your back door

I'm gonna make a little treat, don't want nobody to know

Hurry up little girl, you know I can't stay all night  
Hurry up little girl, you know I can't stay all night  
Your loving may not talk and I didn't come here to fight  
Turn your lights down low  
Open up your back door  
Turn your lights down low  
Open up your back door  
I'm gonna make a little treat, don't want nobody to know
