

Open Up Your Back Door

Canned Heat

Well I know you don't love me and you told me and you showed it
too

Well I know you don't love me and you told me and you showed it
too

I need your loving right now, no matter what you say or do

You put me down pretty baby now you know just how I feel
You put me down pretty baby now you know just how I feel

I need your loving right, come on let's make a little deal

Turn your lights down low
Open up your back door
Turn your lights down low
Open up your back door

I'm gonna make a little treat, don't want nobody to know

Hurry up little girl, you know I can't stay all night
Hurry up little girl, you know I can't stay all night
Your loving may not talk and I didn't come here to fight
Turn your lights down low
Open up your back door
Turn your lights down low
Open up your back door
I'm gonna make a little treat, don't want nobody to know
