

Same All Over

Canned Heat

You know 1968 was a real fine year
We've been around the world and now it's clear

It's the same all over (same all over)
Well it's the same all over (same all over)
Well it's the same all over good people everywhere you go

We had a lot of trouble, you know it's true
But there was always someone to see us through

It's the same all over (same all over)
Well it's the same all over (same all over)
Well it's the same all over good people everywhere you go

When you've got troubles, have no place to go
I'm sure you'll find someone who'll help you know

It's the same all over (same all over)
Well it's the same all over (same all over)
Well it's the same all over good people everywhere you go

Oh Well, 1969 is starting out fine
I got my Verta and we're haven' a good time

It's the same all over (same all over)
Well it's the same all over (same all over)
Well it's the same all over good people everywhere you go
