

Demon's Night

Cannibal Corpse

Sparks, the eyes of fire
Flying high in the night
Storms, the arms of evil
It's gonna take your life

You know the bat's crying
Hell bent for the death
Rain, the tears of the devil
Gonna lay you to rest

Rolling a thunder, a curse on that night
We've got your number, no use to hide

You, you've lost your freedom
To the masters of force
Ride on the waves of magic
Dark nights will be your course

Rolling a thunder, a curse on that night
We've got your number, no use to hide

Demon's night, no way out
Demon's night, the angels fight
Demon's night, cries of pain
Demon's night
Demon's night, a night to die

Lights blinding your mind
Like a flash out of hell
Sounds that no one will hear
It's a demon's bell

Look in the face of horror
It's a dangerous night
Scream for your mother's children
You've lost your human right

Rolling a thunder, a curse on that night
We've got your number, no use to hide

Demon's night, no way out
Demon's night, the angels fight
Demon's night, cries of pain
Demon's night
Demon's night, a night to die

Rolling a thunder, a curse on that night
We've got your number, no use to hide

Demon's night, no way out
Demon's night, the angels fight
Demon's night, cries of pain
Demon's night, a night to die
