

## Dormant Bodies Bursting

### Cannibal Corpse

Bodies are bursting apart  
Volcanic eruption of guts  
Exploding cadavers bring forth  
A bloodbath to torment all life

The sky and the earth are now tainted by blood  
Death is to blame for this enormous flood  
The bodies are bursting apart  
Volcanic eruption of guts

Detonate, polluted, pandemic  
Unburied decedents that no longer die  
Dispelled amok amongst sickness  
The dead and living are one  
When dormant bodies are bursting

The sky and the earth are now tainted by blood  
Death is to blame for this enormous flood  
The bodies are bursting apart  
Volcanic eruption of guts

Infernal, disaster, revulsion  
Dormant bodies bursting

Bodies are bursting apart  
Volcanic eruption of guts  
Exploding cadavers bring forth  
A bloodbath to torment all life

The sky and the earth are now tainted by blood  
Death is to blame for this enormous flood  
The bodies are bursting apart  
Volcanic eruption of guts

Detonate, polluted, pandemic
