

Festering in the Crypt

Cannibal Corpse

Eyes tied tight forever
Mouth wired shut forever
Body parts dissever. You will see no more
Never....

Lowerd into the ground
You will never hear another sound
In your coffin you are bound. Underground
Forever

To the earth you're now enslaved, to the creatures long deprave
d
Flesh has now turned to grey, as the larve gnaw away
As you rott in your smallish tomb, insects care not how you met
your doom
In your casket eternally lie. Many were pleased to see you die

Fester
In the
Crypt where
You lie

Victims
Pass by
They watched
You die

Flesh melts off your frame. Infamous was your name
Years passed since you moved on
Nothing left buy carrion
