## I Will Kill You

## **Cannibal Corpse**

Bleed for my pain Revenge on treacherous snakes They will pay

Slicing the flesh Sculptured wounds my catharsis I will stain

Into the heart Needle injects gasoline Convulsions

The one that they betrayed Has made them this way

Plagued by the bastards I will kill you Killed by my rage

Scream at my face
The grisly scars went unavenged
Until now

Deep in the hole You are not gagged and scream aloud But unheard

Choke on your vomit You watch your hands cut off Then your legs

The one that you betrayed Will kill you this way

Scarred by the bastards I will kill you Killed by my rage I must kill you

Into the throat
The scalpel slices
Warm blood sprays out
The gushing entices

Pull out your heart And let you watch Shove in your mouth Then stab your crotch

I watch your agony

I am released From years of pain Your death averted My becoming insane You are dead
