

Pulverized

Cannibal Corpse

Temptation to kill again
The sensation comes over me
An addiction to murdering
I can't stop killing

You tried to stop me
Dead, before you started
Put me away
Before I put another in the grave

Pulverized, knocked down it came up behind me
In the dark overwhelmed, I feel life slip from me
This isn't happening, pulverized
I won't sustain these injuries pick up the pieces of me

Temptation to kill again
The sensation comes over me
An addiction to murdering
I can't stop killing

You tried to stop me
Dead, before you started
Put me away
Before I put another in the grave

Pulverized, knocked down it came up behind me
In the dark overwhelmed, I feel life slip from me
This isn't happening, pulverized
I won't sustain these injuries pick up the pieces of me
