

# Pulverized

## Cannibal Corpse

Temptation to kill again  
The sensation comes over me  
An addiction to murdering  
I can't stop killing

You tried to stop me  
Dead, before you started  
Put me away  
Before I put another in the grave

Pulverized, knocked down it came up behind me  
In the dark overwhelmed, I feel life slip from me  
This isn't happening, pulverized  
I won't sustain these injuries pick up the pieces of me

Temptation to kill again  
The sensation comes over me  
An addiction to murdering  
I can't stop killing

You tried to stop me  
Dead, before you started  
Put me away  
Before I put another in the grave

Pulverized, knocked down it came up behind me  
In the dark overwhelmed, I feel life slip from me  
This isn't happening, pulverized  
I won't sustain these injuries pick up the pieces of me
