

## Put Them to Death

Cannibal Corpse

Evil people with evil minds  
Slaughter their victims with ripping knives  
They should be caught and put to death  
Strapped to the chair, they should die there

Blood spewing from their eyes  
As you hear their sinful cries  
Destroy their evil minds  
We should take their fucking lives  
They should be caught and punished  
For what they have done  
Torture them slowly it would be fun  
Kill them all off one by one

Let them go - no torture them slow  
Fuck you - and your kind  
We don't need you, or your lives  
Execute by injection  
Execution by electricution

Evil people with evil minds  
Slaughter their victims with ripping knives  
They should be caught and put to death  
Strapped to the chair, they should die there
