Return to Flesh

Cannibal Corpse

Bleeding wounds never clot Even after death Murdered dead look on from beyond Never to return No way back at all Trapped Between life and death We can't return to flesh I'm dead now Life has passed In the grave No life left Move on to The other side Rotten I have died Murder took my life away I will never rest Dead, reaching from the grave So cold in this place [Solo - Jack] I'm dead now Life has passed In the grave No life left Move on to The other side Rotten I have died Murder took my life away I will never rest Dead, reaching from the grave So cold in this place No way back at all Trapped Between life and death I will come back
