Rotted Body Landslide

Cannibal Corpse

Climbing the mounds to escape from death Ten thousand left to rot In this gorge

Bodies lie Putrety

I wont die Suffocating stench of corpse's warfts Up from the bits of deaths Fumes disgorge

Walls steep Rancid heap Vapors creep

Underneath Putrid tide Rotted body Land

Slide Genocide

Mountains of dead mark the place where they died, they died Transfixed with horror as the corpses fall

Flesh sloughs off as I try to grasp

Start to slip Suffocate Corpses weight Steals my fate

Putrid one Underneath Rotted body Slide Land

Genocide

Anguish eternally fixed in their eyes
Landslide
Rotted body
Avalance of cadavers down the mountainside

Slide

Mountains of the dead mark the place where they died $\mbox{\sc Genocide}$ They died

Bodies of the dead Smother me with rot Remains are crushing me Decomposing mound

This is where I die Nameless dead my witness Slide
Anguish eternally fixed in their eyes
Rotted body
Genocide
Landslide
Avalanche of cadavers down the mountainside
