## The Bleeding

## **Cannibal Corpse**

Bleeding

Slicing through the flesh A knife stuck in your neck Stabbing out your eyes Cutting through the spine

Blood burning through my veins We have risen from the grave

Live, life

Dead for years, now alive The dead came to life

Dead creatures out for blood After death we will awaken Unhuman beings from beyond Rotting zombies out for blood

Bleed, bleed

Bleeding through my pores Clotted pus, crusts my skin My body cold But I live on Bleeding

The dead awaken, living rotten Rotten living dead

Slicing through the flesh A knife stuck in your neck Stabbing out your eyes Cutting through the spine

Blood burning through my veins We have risen from the grave

Live, life - dead
